

The Global Alliance of Independent Networks (GAINS) is comprised of more than 19 stroke networks from around the globe to form one large, collaborative “network of networks”. Great minds, working together, sharing best practices, funding opportunities, and educational efforts to accelerate the pace and success of stroke clinical trials, with the ultimate goal of improving outcomes of stroke patients everywhere. The noble charge GAINS leadership has taken up is to help facilitate, strengthen, and educate stroke trialists, stroke trial networks and stroke trials worldwide. If your network would like to join GAINS in this effort, please ***contact us*** today.

Current GAINS Executive leadership includes:
Joe Broderick, Andrew Demchuk, Michael Hill, Pooja Khatri, Scott Janis, Jordan Elm, Gary Ford, Tom Robinson, Jeyaraj Pandian, Kazunori Toyoda and Robin Lemmens.

More information about GAINS can be found at <https://www.globalstroketrials.org>

THE INTERNATIONAL GAINS NETWORK A NETWORK OF NETWORKS

Please pencil us in! The **GAINS Global Trials Forum III** is scheduled for Monday, 13-September, from 8-10am ET. Look for more information to follow soon. We hope you will join us for more interesting presentations and lively discussions.

The second **GAINS Global Trials Forum** took place on 17-May, 2021. Just as previous forums, the feedback was extremely positive.

The four trials presented were very engaging and robust discussion followed each presentation:

Magdy Selim, from Beth Israel Deaconess in Boston, MA, shared **StATins Use in intRacerebral hemorrhage patieNts (SATURN)**, exploring possible international expansion.

Rohit Bhatia, from All India Institute of Medical Sciences in New Delhi, India, presented **RE-OPEN: Randomised Trial of Biosimilar TNK Versus TPA during Endovascular Therapy For Acute Ischemic Stroke Due To Large Vessel Occlusions**.

Mohammad Wasay, from Aga Khan University in Karachi, Pakistan, shared his proposal, **CILOSTAZOL FOR THE PREVENTION OF STROKE IN TUBERCULOUS MENINGITIS: A RANDOMIZED DOUBLE-BLIND PLACEBO CONTROLLED CLINICAL TRIAL**.

Aihua Liu, from the Beijing Neurosurgical Institute, China, is the PI of **Subarachnoid aneurysm endovascular (SANE) cohort study in China: the protocol of a prospective multicentre registry**, which Dr. Chen presented.

For more information on these trials or how to contact one of the presenters, please visit the GAINS website or contact us at <https://www.globalstroketrials.org/contact>.

Register NOW! The **programme** for the 1-3 September ESOC 2021 has been announced. Register at <https://eso-conference.org/registration/>.

Coming Soon in Q4 2021: The virtual **ESOC Stroke Summer School** for stroke trainees. The ESO Stroke Summer School is a flagship event for ESO and a prestigious educational meeting for stroke trainees throughout Europe. The ESO Summer School is on application only, and participation is limited. Look for more information soon at <https://eso-stroke.org/meetings/summer-school/>.
